

PROJECT DESCRIPTION

The Alberta Clipper Pipeline Project is a 1,607 km crude oil pipeline extending from Hardisty Alberta, to Superior, Wisconsin. The Canadian portion of the Project entailed the construction of 1,070km of NPS36 pipeline from the Hardisty Terminal to the US border near Gretna, Manitoba. This contract involved the construction of three separate 11,000 hp oil Pump Stations located in Cromer, Glenboro and Gretna. Each project included offsite fabrication, onsite erection, installation and commissioning. This project was completed with our Joint Venture Partner Aecon Utilities. Various scopes were also subcontracted to Aecon Utility Engineering and Aecon Industrial.
