

## Urban Mains Replacement - Westwood

**PROJECT DESCRIPTION**

Urban Mains Replacement Project Westwood The project consisted of replacing existing steel mains and services in the Westwood area of Edmonton. The area is primarily residential and with small apartment complexes. The project involved installation of 5000m of PE mains ranging from 2" to 4", and 420 service connections. The scope also involved with the replacement of service lines was to move any existing inside gas meter to the outside of the building. Inside gas meter work consisted of primarily residential houses with 200 series meters, and commercial meters up to 2M rotary meters.
