

PROJECT DESCRIPTION

The project involves the replacement of non-certified PE pipe on mains and services in the hamlet of Pibroch (Weslock County), Alberta. Total lengths are approximately 500m of 2" PE, 188m of 1 1/4" PE and 31 services. New mains and services will primarily be installed by directional drilling. Any gasfitting work required to switch over the customers gas meters to the new lines was completed as well.
