

## PROJECT DESCRIPTION

Project is to replace existing steel mains and services in the Looma Estates rural subdivision SE of Edmonton. Area is all residential and involves installation of 1,000m of PE mains up to 3" and 20 services. New mains and services will primarily be installed by directional drilling. Also involved with the replacement of service lines is to move any existing inside gas meter to the outside of the building. Inside gas meter work will consist of primarily residential houses with 200 series meters.
