

## PROJECT DESCRIPTION

Project is to replace existing steel mains and services in the Lauderdale area of Edmonton. Area is primarily residential and some commercial buildings. Project involves installation of 550m of PE mains up to 2" and 95 services. New mains and services will primarily be installed by directional drilling. Also involved with the replacement of service lines is to move any existing inside gas meter to the outside of the building. Inside gas meter work will consist of primarily residential houses with 200 series meters, and may involve some commercial rotary meters.
