

PROJECT DESCRIPTION

Project is to replace existing steel mains and services in the Youngstown area of Edmonton. Area is fully commercial buildings. Project involves installation of 2,500m of PE mains up to 6" and 92 services. New mains and services will primarily be installed by directional drilling. Also involved with the replacement of service lines is to move any existing inside gas meter to the outside of the building. Inside gas meter work will consist of commercial buildings with primarily larger commercial rotary meters.
