

## Steel Mains Replacement (SMR) - Woodcroft

**PROJECT DESCRIPTION**

Project is to replace existing steel mains and services in the Woodcroft area of Edmonton. Area is primarily residential with some condominiums and commercial buildings. Project involves installation of 2,750m of PE mains up to 2", 750m of PE mains between 3" and 4", 750m of 6" PE mains, and 380 services. New mains and services will primarily be installed by directional drilling. Also involved with the replacement of service lines is to move any existing inside gas meter to the outside of the building. Inside gas meter work will consist of primarily residential houses with 200 series meters, and commercial meters up to 2M rotary meters.
