

PROJECT DESCRIPTION

Project is to install valves and main extensions at 4 sites in Edmonton. The projects involve the installation of 3" PE, 6" PE and 8" YJ steel pipe, and utilizing 8" and 12" full Mueller fittings for tie-ins.

For over sixty years, we have leveraged innovation to connect communities. We remain committed to responsibly construct a clean, sustainable future. Somerville builds the infrastructure that makes energy reliably flow; from generation to generation.
