

### PROJECT DESCRIPTION

Installation of 8.5 km of NPS 6 steel pipeline, with an additional 2.5 km of 6" plastic with services to various buildings throughout the CNL compound. Sensitive issues on this project involved excavating in a lot of work, and a number of environmental and species considerations

For over sixty years, we have leveraged innovation to connect communities. We remain committed to responsibly construct a clean, sustainable future. Somerville builds the infrastructure that makes energy reliably flow; from generation to generation.
