

# ENBRIDGE : HENDERSON CREEK (SUBCONTRACTED TO TRIPLE J PIPELINES)

**SOMERVILLE**

## PROJECT DESCRIPTION

The scope for Henderson Creek Crossing was to install a new 1018m NPS26 Pipeline across Henderson Creek near Bonanza, Alberta. The crossing was executed using an American Augers DD1100 with an exit side winch on exit during reaming operations. Pilot was completed with an 8-inch mud motor and 12 ¼ milled tooth bit utilizing a wireless guidance technology. Reaming was completed using a 30inch and 38inch milled tooth reamers. Pull back activities included the installation of buoyancy control measures.

For over sixty years, we have leveraged innovation to connect communities. We remain committed to responsibly construct a clean, sustainable future. Somerville builds the infrastructure that makes energy reliably flow; from generation to generation.

Job Number: 21703

Role: Subcontractor
