

PROJECT DESCRIPTION

Expertech is the exclusive infrastructure provider and a subsidiary of Bell Canada and Bell Aliant in Northern Ontario and Quebec. Robert B. Somerville is one of three contractors providing general contract services for Expertech in Ontario, and have been doing so since 2008.

Somerville provides services mainly roping and rodding and proving ducts for new cable routes, installing mule tape for new installations, copper and fibre installations utilizing pulling methods as well as fibre blowing, clearing blocked ducts, installing grade level boxes (GLB's), pullpits, handholes, and general maintenance in OPI's and switching stations. All work provided ranges from urban areas to rural settings including other utility and railway corridors.

For over fifty years, we have leveraged innovation to connect communities. We remain committed to responsibly construct a clean, sustainable future. Somerville builds the infrastructure that makes energy reliably flow; from generation to generation.
